FROM THE EDITOR'S DESK

The Annual General Meeting took place on 26 October. There were some changes to the Board. Craig Brander VE2YGK has left, and we extend our thanks to him for his years of service on the board, and hope he might repeat the experience at a later date. Two members joined, Nora VA2NH and Leo VE2SI.

Thanks again to Marc-André, VE2EVN, and Jim, editor and interim editor respectively, for their assistance in producing MARCOgram. Keep the articles coming, folks: more is better than less. As every editor has pointed out, MARCOgram is only as good as its contributors, so start writing.

ST. PATRICK'S DAY PARADE

It's that time of year again; planning for the Saint Patrick's Day parade is underway.

The annual St. Patrick's Day Parade will be taking place on 19 March 2017 and Jim VE2VE is looking for amateurs to assist with certain communications. He needs three people to walk with the parade and provide position information. He will be contacting people shortly to assist him at parade headquarters.

Please contact Jim if you are interested, but remember that the parade will be held regardless of the weather so you'll have to dress appropriately.

Please contact Jim at ve2ve@marc.ca if you would like to help.

VB2W DXPEDITION TO ZONE 2

By Marc-André Gingras VE2EVN

Well as you can see, I made it back safe and sound. The trip was actually pretty easy, as time passes along quickly when in good company. We traveled Montreal to Amos on Thursday, and Amos to Waskaganish on Friday to setup for the CQ Worldwide SSB Contest, in CQ Zone 2 land.

We, Martin Houle VA2AMH, Marc-André Boucher VE2MBT, Pascal Carrier VE2WHZ and myself, had planned to be on the air using two radios during the contest. We setup VE2MBT's Flex 6000 SDR radio as main calling station and my IC7000 as "chase/multiplier" radio. Now the original plan was to use trapped dipoles on masts, but these plans were scaled back to using an end-fed "Ultimax" wire antenna, and a loaded vertical for 20m-10m. This turned out to be a mistake given the lack of high enough structures (trees) and the conditions we faced during the weekend.

MARC MEMBERSHIP RENEWAL

MARC membership runs from 1 Sept to 31 Aug of the following year. The membership renewal was therefore due last September. If it's slipped your mind, I'll be happy to accept your renewal any time.

The Marcogram newsletter is sent to members via email. If you wish to receive your Marcogram by post instead of e-mail, please note there is an added \$5 to defray the increased postal costs.

You can renew your membership in person at the next meeting by handing me your completed renewal form, or by mail using the same renewal form.

For your convenience, you can also use the online form to renew your membership using PayPal at this address:

<http://www.hay-net.net/~ve2arc/memform/>

I look forward to seeing you at the next meeting, and don't forget your completed form if you wish to renew in person.

Marc-Andre, VE2EVN, MARC Vice President

We got on the air a little late because of issues setting up the stations. We quickly realized that conditions were not very good, but we managed to get a few contacts on 15m and 40m. Around 11pm that evening the low bands got very noisy, and we weren't getting out anymore. We checked everything, and all seemed to be fine. It turned out to be that given our higher latitude, auroras were right on top of us. There was nothing we could do. I tried in vain to make contacts for a few hours more, with no results.

Saturday morning was a bit rough for me, as I had only slept about 3hrs, so it was a slow start. We managed more contacts on 15m using the main station, but the vertical was not getting out at all. We decided to drop the 2nd radio and take shifts on the main station instead. Saturday evening saw better conditions on 40m where I made a nice run of about 50 Qs, but then it suddenly ended. It was strange as we could hear many stations, but none could hear us. Reason was the auroras were back. Now I don't know if it's that the
